

#ActOnYour
ClimateScience

Coalition

- International and regional student organisations
- SOS International
- SOS UK
- Global Student Forum
- Regional student union federations
- Youth4Nature

Join!

Main strategy

1. Our coalition develops the campaign and recruits national campaign coordinators (NCC).
2. NCCs gets training and support in our academy to start and run the campaign nationally.
3. The campaign pushes thousands of HEIs to take action in line with science and equity.
4. By practicing what they preach, HEIs influence society to close the science-action gap.

Framework

- A one year process with ten steps:
 - Inclusive dialogue
 - Climate education
 - Science based targets
 - Action plans
 - Ranking

Academy program

- Introduction
- Framework
- Climate science
- Advocacy
- Leadership
- Support

Campaign teams

- Academy
- Communication
- Ranking
- Action

Climate Students

Climate Students Movement

- International student association founded in 2020
- Forerunner: the Climate Students Sweden founded 2018
- Operates to strengthen students groups to pressure universities and colleges to impact society
- Capacity building worldwide through network meetings
- Building a global advocacy campaign together with SOS, Global student Forum and Youth4Nature

Climate Students Movement

- Aim to save our future by closing the gap between climate science and climate action
- By realising the “Practice what you preach” model
- People listen more to climate scientist that lead by example
- To impact on a large scale we also need that higher education institutions practice what they preach
