

What is it?

- Ranking of higher education institutions based on their effort to be sustainable

Why is it important?

- Educational institutions should be at the forefront in the transition towards sustainability

SustainaBul

How do you start?

- Decide on participants
 1. Who?
 2. Are they easy to reach?
- Determine the length of the process
- Start recruiting!

Preparations

- Make a questionnaire
- Find volunteers to rank
- Find a way to collect answers

Ranking process

- Round one
- Institutions round
- Round two

Reduction of energy consumption

9. Are there any measures to reduce energy consumption in your facility?

a. No, this is not (yet) happening.

b. Yes, this is included in our policy.

i. If yes, which of the following applies?

1. Based on the policy, we have developed a strategy for the implementation of the policy and set goals.

2. The strategy has been implemented and is being monitored.

3. Students and other stakeholders are involved in the process.

4. These policy and vision documents can be viewed transparently and found online.

The final steps

- Write a benchmark report
- Announce the winners

Awardshow

Press release

- Reward the rankers
