- ✓ Standard price at € 615 (2 hour workshop). SOS International is not-for-profit and charges a fair price to cover staff costs.
- ✓ Request your workshop via contact@sos.earth

“Through SOS International’s workshop, the students gained essential knowledge about sustainability in higher education and useful skills which they can apply to realize tangible change projects at their institution” - Jan Cloppenburg, President of fzs e.V., Germany

“SOS International’s well-designed workshop and training has also shown us a new approach to project planning and has given participants the confidence and skills to proceed with their projects. We look forward to our next workshop!” - Ana Lopez, Coordinator at the Greenwich Sustainability Hub, United Kingdom

“During our member weekend with Green Office for KU Leuven, we enjoyed a workshop given by Maartje (Green Office Movement & SOS Earth). This was very instructive and has given us new insights, both in our individual position and in our organization. First, we worked to achieve an optimal atmosphere of motivation and engagement, working to create an open space for everyone to contribute, so every perspective was represented in our critical discussion on 'How can we improve our Green Office?' Moreover, Maartje encouraged us to convert the new ideas into concrete objectives. That way it was very easy to get to work on this in our internal meeting. We are very grateful for this workshop and we believe that this has taken our Green Office to a higher level.”

Individual and interpersonal skills on sustainability

Sustainable event management – Sustainable lifestyle and habits – Conversations about Climate & Sustainability – Managing emotions and resistance – How to get from Intention to Action / How to be a Changemaker? – Mental Health & Well-Being – Physical Health & Well-Being – Project Management – Personal Branding as a Changemaker – How to Shape your Sustainability Career

Organizational and Team Management Workshops

EVENT SUPPORT

Need a hand organizing your (inter)national sustainability event? We have years of experience in higher educational institutions and organizations to support you in the preparation phase as well as during your debate, discussion, workshop, roundtable talk, conference...

- ✓ Delivered online or on location
- ✓ In English or Dutch
- ✓ Prices on request once we understand your requirements and the potential of your event
- ✓ Request your event support via contact@sos.earth

The support that SOS International offered us during the preparation of the Green Office Meet Up was invaluable. Ann-Sofie brought original ideas to the table during brainstorming sessions and provided valuable technical and content support during the event itself. Ann-Sofie excels in drawing up clear and structured scripts, an indispensable support during any (digital) event. Her eye for detail and good-humored way of working definitely raised our Meet Up to a higher level! – Brecht, GreenTeam VUB

Content of your event

Support the design of your event program

We offer insights, methodologies and good practices to craft a well-balanced event program that works for everyone. We pay special attention to diversity, inclusiveness, sustainability behind the scenes...

Co-organize (inter)regional or (inter)national events

Drawing on previous collaborations for numerous conferences, summits and training days, we can assist you in bringing a group of likeminded people together

Deliver a keynote speech at your event

We aspire to inspire your audience on a broad range of topics

Logistics of your event

Facilitate or moderate your (online) event

We ensure your event runs smoothly and taps into the full potential of all participants

Host your virtual event

Sometimes you just want to kick back and enjoy. Let us take care of all technicalities

Host your blended event

Benefit from our expertise in hosting events that take part online and offline simultaneously

CONSULTANCY

Are you looking to make a big change within your organization? Our consulting services can benefit any team, department, student group or institution wanting to enhance their engagement with youth, students or employees on the topic of sustainability. All consulting sessions are tailored to your needs!

- ✓ Delivered online or on location
- ✓ In English or Dutch
- ✓ Duration and prices on request once we understand your requirements
- ✓ Request your consultancy via contact@sos.earth

SOS International provided us with guidance, all the way from the kick-off event through the unexpected transition (due to COVID-19) into an online working environment until the final closing ceremony. We sincerely appreciate the teamwork as well as the navigation and support that SOS International was ready to provide us with throughout all phases of the project. – Green Office & Taskforce Sustainable UM2030 at Maastricht University, who opted for an adapted version of the Green Impact program with bespoke support from January to July 2020
